

## Boating Industry Open Day

Thursday, 6<sup>th</sup> October

4.30pm, Coomera

**RSVP HERE** or visit [shorturl.at/beZ68](https://shorturl.at/beZ68)

# Start your boating or marine career at school with the Boating Industry Academy

The Boating Industry Academy is the first industry-driven program for high school students wishing to pursue a career in the boating and marine industries.

Join us at our Open Day to learn more about the unique and immersive industry education experience and talk to key boating and marine employers about the various career pathways available.

The initiative is supported by the Boating Industry Association (BIA), the peak industry body in Australia serving members such as Telwater, Boat Works, Riviera, Maritimo, and hundreds more.

The Academy is for career-minded young people in Year 10 or 11 (in 2023) looking to work in the boating and marine industry. Students spend five weeks a term in school (AITC Robina campus) and up to 28 weeks a year in the boating industry, in the heart of the largest marine precinct in the Southern Hemisphere.

The program is designed to develop employability skills via work experience and immersion in a wide range of functions within the industry before commencing a school-based apprenticeship.

**Students in Year 10 or 11 in 2023 are encouraged to register!**
